About us

Who are we?

Hyre Harper Co. is a veteran-led organization with over 25 years of experience helping public and private sector clients achieve operational excellence. Our Integrated Operations and Strategy Division delivers targeted solutions in project management, business strategy, process optimization, and digital transformation to drive measurable results.

We specialize in Health Information Management (HIM) services, including Medical Coding and Auditing, Clinical Documentation Improvement (CDI), and Cancer Tumor Registry, and recruit skilled professionals for both contract and permanent roles; while prioritizing retention, cultural fit, and long-term success.

Our team also provides customized training programs to upskill staff and support organizational growth, and we recruit talent across all levels, from production staff to executive leadership; including clinical, allied health, administrative, and support roles, aligning each placement with client needs.

Past Performance

Who recommends us?

Hyre Harper Co. has successfully led high-impact initiatives, including automating supplier onboarding for a major e-commerce company, implementing Agile workflows for multi-team operations, and designing centralized stakeholder support systems. Also, delivering measurable improvements in efficiency, cost reduction, and performance visibility.

Above 90%
Task Automation

95%
On-time Delivery

200+
Projects Integrated

1-Day
Onboarding Time

SME Contract & Cancer Registry Expertise: Provided Cancer Tumor Registry services for federal and commercial clients, including SME support for the VAMC Modernization (Award ID: 36C10A24C0007).

Nationwide Staffing: Placed 1,000+ professionals across HIM, CDI, HIT, and VA healthcare systems.

Supplier Onboarding Automation for Wayfair
Reduced onboarding time from 30 days to under 1 day by automating 90% of manual tasks and implementing self-service workflows.

Centralized Stakeholder Support System
Designed and deployed a support workflow using Jira Cloud, Slack, and Miro—cutting task volume by 40%, reducing personnel needs by 95%, and shortening resolution time from 10 days to 1.
